DO YOU KNOW THE EASY WAY TO INCREASE YOUR CHILD'S ACADEMIC SUCCESS? ADD MUSIC

Research shows that music changes the brain. The secret is that music activates many areas of the brain at the same time. Researchers have also found a significant relationship between music instruction and positive performances in such areas as reading comprehension, spelling, mathematics, listening skills, primary mental abilities (verbal, perceptual, numeric, and spatial) and motor skills. Music education gives your kids the super advantage.

So give your student that advantage and Join Columbia String Orchestra.
